**EXAMINER'S AMENDMENT / REASONS FOR ALLOWANCE**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jay Chesavage on March 8, 2006.

The application has been amended as follows:

In Claim 12, line 8, replace "a thickness" with --a substantially uniform thickness--.

2. The following is an examiner's statement of reasons for allowance:

The invention as claimed, specifically in combination with a fiber having a cladding thickness sufficient to fully contain the guided light in other parts of the fiber, a metal layer on the side surface having a substantially uniform thickness to transmit an evanescent field, and a processing circuit to measure an optical loss of the guided light and extract a presence or property of the medium above the metal layer from the measured optical loss, is not disclosed or made obvious by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Berkcan US 5,324,933, teaches a similar sensing device using an evanescent field and a metal layer, but operates by the metal layer reflecting the evanescent field and measuring a wavelength shift of the reflected optical signal instead of transmitting the evanescent field and measuring an optical loss of the optical signal in Applicant's claimed invention.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stephen Yam whose telephone number is (571)272-2449. The examiner can normally be reached on Monday-Friday 8:30am-5pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Georgia Epps can be reached on (571)272-2328. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
